

Reach compliance statement

June 13, 2018

DRI Rubber is aware of and working conform the EU Chemicals Legislation. This includes the REACH Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals and the CLP Regulation (EC) 1272/2008 concerning the Classification, Labelling and Packaging of chemicals.

DRI Rubber focuses on the reprocessing of non-vulcanized rubber raw materials that originates from the tire industry into fully-fledged semi-finished rubber products that can be used in the production of automotive and technical rubber products.

Non-vulcanized rubber raw materials are purchased from EU and Non-EU suppliers as non-hazardous waste under the EU waste framework directive or as products under the REACH & CLP Regulation in a controlled way. The relevant legal documents and information are collected and processed.

The role(s), relevant product definition and legal requirements under REACH, CLP versus the Waste legislation are verified and completed for all DRI Rubber products. All our products are in conformity with the REACH, CLP and Waste legislation.

DRI Rubber is reprocessor of these products, whereby the raw materials purchased ceased to be a waste in our production process. The substances in our mixtures are exempted for registration under REACH Art 2.7 (d). From verification via the suppliers and the ECHA website, to the best of our knowledge, our products don't contain any known substance of very high concern (svHC) above 0.1% or are listed on the Authorisation list (REACH Annex XIV) or Restrictions list (REACH Annex XVII). Although not required to be provided, a safety data sheet (SDS) is available for both non-hazardous products.

DRI Rubber has prepared this REACH Compliance Statement to the best of our knowledge and information available. The REACH Compliance Statement is provided in good faith and can be used by the customers under their own responsibility. DRI Rubber will keep track on relevant changes in the EU Chemicals Legislation and/or provided by our suppliers to keep this REACH Compliance Statement accurate.

Don't hesitate to contact us if you have questions (technicalsupport@drirubber.com)
